COLEÇÃO NATAL 2020

A coleção 2020, predominantemente destacada pela tendência do Rosê e o Marsala, com pinceladas de Champanhe e off White, e o nosso famoso vermelho luxuoso veio com mesclas de xadrez, listras e poá.

Brinca com a elegância das bonecas com rosto de resina, roupas de tricô e pele. O capuz das ovelhas e a imensidão de renas, esquilos e ursos fazem do Natal uma festa no mundo do Noel, e por falar neles, chegam em diferentes tamanhos, alguns enfeitados com peles, xadrez e gorros de diversas modelagens.

As resinas estão de tirar o folego, com características juvenis e a meiguice dos anjos, a linha sacra trazendo novos materiais e adereços, como ferro e madeira, composições com oratórios, sempre mantendo nosso estilo arrojado e vestimentas estilizadas.

Além das novidades de malas e baús em cores leves e padronagens vintage e retrô.

As nossas linhas estão bem variadas fazendo com que produtos em saldo se misturem aos novos trazendo repaginação e sucesso na sua loja.

PALAVRA DOS DIRETORES

Fundada há 13 anos, a marca vem crescendo no mercado com a filosofia de que as organizações são constituídas de pessoas e dependem delas para atingir seus objetivos, juntamente com missões e valores.

Isso faz com que o vínculo, que temos com nossos clientes, fique cada vez mais estreito. Por entendermos que nossos clientes são o nosso bem mais precioso, ficamos muito felizes em poder aumentar e firmar mais parceiras.

Nesse ano atípico, estamos nos reinventando a cada dia para que consigamos fazer tudo que é necessário para confortá-lo e dar suporte e juntos tenhamos um final de ano com um Natal de muitas conquistas e vitórias, que possamos sair muito mais fortalecidos.

A detailed and festive Christmas floral arrangement. The composition is rich with textures and colors, dominated by gold and deep red tones. Large, shimmering gold leaves are interspersed with smaller, realistic-looking red and green foliage. Strands of small, round gold beads are woven throughout the arrangement. A prominent feature is a large, striped feather with alternating gold and dark brown bands, extending diagonally across the upper right. The background is a soft, out-of-focus grey, which makes the vibrant colors of the flowers stand out. The overall lighting is warm and golden, creating a cozy and celebratory atmosphere.

A close-up photograph of Christmas decorations. In the foreground, a clear glass ornament with a white web-like pattern and orange hexagonal sequins is prominent. Above it, a gold and white patterned ornament is visible. Green pine needles and small white berries are scattered around the ornaments. The background is softly blurred, showing more lights and decorations.
